

The Philippe Shubik Distinguished Scientist Award

Dr. Philippe Shubik

The recipient of The Philippe Shubik Distinguished Scientist Award is an individual who has (1) led a long and productive career in toxicology and who has made significant and noteworthy contributions to our field, including all aspects of traditional toxicology and regulatory toxicology; and (2) played a leading role in the development of toxicology concepts and mechanisms or guidelines that have made significant and long-term change in important regulatory policies.

The 2011 Recipient

Professor Ronald Walker PhD CChem FRSC FIFST

Professor Ronald Walker is Emeritus Professor of Food Science, School of Biological Sciences, University of Surrey, UK. As a food toxicologist he has a wide range of food safety research interests particularly in food additives and contaminants (including mycotoxins and intrinsic natural toxicants). His expertise is often sought in the area of novel foods. He has published over 160 research publications in his area of expertise. For over 30 years Professor Walker has served on numerous UK and international food safety committees. He has served on the Food and Agriculture Organization / World Health Organization Expert Committee on Food Additives (JECFA) for 19 years and since 1993 has acted as Chairman or Vice-chairman. He has served on a number of working groups of the International Program on Chemical Safety. Professor Walker has served as a temporary adviser to the WHO Secretariat at the Joint WHO/FAO meeting on Chemicals in Food, Food Standards and Food Trade 1991. He has served on the European Commission Scientific Committee on Food for several working groups on Nitrates, Nitrites and N-nitroso compounds and was appointed as a member of the Plenary Committee in 1999 and 2000. Within the UK he has been a member of the Advisory Committee on Food Safety Research, the UK Food Safety and Applied Nutrition Research Consultative Committee, and as chair in 1988-89, and the UK Advisory Committee on Novel Foods and Processes. He was the Editor of the Journal "Food Additives and Contaminants" from 1983-2000.
